

VICTORIAN DESALINATION PROJECT

COMMUNITY PARTNERSHIPS

COMMUNITY PARTNERSHIP GUIDELINES

TDV/FS-0017-00

Introduction

Thiess Degrémont is the design and construction contractor for the Victorian Desalination Project.

We recognise the importance of investing in the communities in which we work. We're committed to supporting events and activities that inspire positive and productive relationships between the project, our people and the local communities in which we work.

We welcome applications for sponsorship and ideas for community partnerships that support these objectives.

What we look for in a partnership

We look for partnerships which:

- Have something positive in common with the work we are doing on the Victorian Desalination Project
- Help build positive relationships between our people and the local community
- Provide a positive benefit to local communities within Bass Coast, Cardinia and Casey, where we are constructing the project
- Help enhance the image of our organisation within the community

Examples of the types of activities that could be supported include:

- Funding for local projects or groups that share our vision for delivering enhanced environmental and community outcomes
- Funding for groups or clubs that inspire positive and productive relationships
- Funding for local projects designed to bring people together and provide positive benefits for local communities.

Activities that we DO NOT support

Projects that are outside the scope of our community partnerships program include:

- Activities where the audience is not a relevant Thiess Degrémont target market;
- Activities that promote a political or religious opinion;
- Organisations linked to tobacco, gambling, illegal drugs or alcohol;
- Activities that may be considered discriminatory; and
- Activities of a hazardous or dangerous nature.

Activities we are not able to support include funding for the maintenance and fixing of roads or other local infrastructure as these needs are managed through other forums.

How to apply

Simply fill in a Community Partnerships Application Form and send it in to us. We will write back to you, confirming that we've received your application.

You should allow a minimum of four to six weeks for your application to be assessed. We will contact you for more information if required.

All applications for sponsorship are assessed and reviewed on their individual merit and on the basis of information provided in the sponsorship application form.

Please realise that we can't say yes to everything. Your proposal might be very good, but just not for us at this time.
